#### **Having power over others doesn't necessarily make you feel powerful**

*New York Post (Web), Unattributed, 17/08/2017*

The implication, the authors said, is that people might have "overly optimistic" ideas on what it's like to wield power. The study, conducted by researchers from the UK's University of Kent and Germany's University of Cologne, also found that low personal power (or being controlled by others) coincided with low influence "and hence a lack of social power"...

#### **HEALTH BITES**

*South China Morning Post, Main, p. 30, Unattributed, 01/08/2017*

..."paving the way for human clinical trials". DMD is caused by genetic mutations that interfere with production of dystrophin, a protein needed for healthy muscles. Geneticist Darren Griffin, from the University of Kent in southeast England, says this was "really a very exciting study". "The disease has long been a target for gene therapy and it is only to be

#### **Learning from the first eclipse media event**

*The Jakarta Post, Main, p. 11, Unattributed, 23/08/2017*

...disseminating their predictions - the burgeoning English print media of the early 1700s. That combination of scientific accuracy and media attention made for a "propaganda coup for the new science," University of Kent historian of science Rebekah Higgitt wrote in the Guardian on the 300th anniversary of the 1715 eclipse two years ago. In the three centuries since...

#### **Is Exit From Brexit Possible? Some Britons Still Lobby to Remain**

*NBCNews.com (Web), Unattributed, 03/08/2017*

...optimism by those who would like to stay a member of the EU, political analysts say that it's unlikely. "It is significantly unlikely that the vote will be overturned," said Matthew Goodwin, a professor of politics at the University of Kent. "Both of Britain's two main parties are committed to respecting the referendum result so while the terms of Brexit...

#### **Early exposure to porn makes boys more likely to want power over women in later life**

*International Business Times UK (Web), Unattributed, 03/08/2017*

...having that awareness of how it can affect our views and being more conscious of that might mean it doesn't affect our views as much." Forensic psychologist Afroditi Pina of the University of Kent welcomed the study, saying that she had found similar figures for children's access to pornography in a study in the UK for the Office of the Children's...

#### **Shock NYT Op-Ed: Establishment Must Make Concessions to Voters, Says Brit Columnist**

*Breitbart.com (Web), All, Neil Munro, 30/08/2017*

...The New York Times was forced to hire a foreign professor to do the job American columnists just won't do: Tell the establishment to trade some of their progressive immigration policies in exchange for votes from the alienated middle-class...

### **Brexit Sends Labour Back to Class**

*New York Times (Web), Unattributed, 29/08/2017*

LONDON — Whatever else it may have been, the Brexit vote was a working-class revolt. Britain's two main political parties, Conservative and Labour, are still grappling with that fact. So far, it has created more problems than opportunities for both, but especially for Labour. Though Britain's left behind and beleaguered workers were not the only ones to vote to leave the European Union, they provided the bulk of support. This is especially true for the so-called C2s, a term derived from market research to denote skilled and semiskilled workers. Had political observers zeroed in on this group, they might have seen sooner how the Brexit referendum would turn out.

### **Why giving is a real art**

*The Courier Mail, Main, p. 17, Unattributed, 04/08/2017*

...going to the theatre or art galleries, you're more likely to be generous. A study of 30,500 adults has uncovered a clear link between enjoying culture and giving to charity. Kent University researchers, whose work was published in Social Psychological and Personality Science, studied questionnaires in which people said what they enjoyed and how much they gave to charity.

### **Gene editing stirs debate on 'designer' babies**

*The Straits Times, Main, p. 9, Unattributed, 04/08/2017*

...genome editing has moved from future fantasy to the world of possibility". The debate about using it in practice "needs to run to catch up". Professor Darren Griffin of the University of Kent, in Britain, said: "Perhaps the biggest question, and probably the one that will be debated the most, is whether we should be physically altering the genes of

### **Disease Gene 'Edited' in Human Embryos in Scientific First**

*News18.com (Web), Unattributed, 04/08/2017*

...probably the one that will be debated the most, is whether we should be physically altering the genes of an IVF (lab-created) embryo at all," added Darren Griffin of the University of Kent, in Britain. "Equally, the debate on how morally acceptable it is not to act when we have the technology to prevent these life-threatening diseases must also come...

### **It is tough to judge your intuition!**

*The Siasat Daily (Web), Main, Unattributed, 01/08/2017*

Delhi [India]: Being intuitive may not be related to one's performance in tasks that require intuition. In a new research by Dr Mario Weick and Stefan Leach, of University of Kent's School of Psychology, the extent to which people feel confident about, and endorse, their intuitions may often not provide an indication of how good their intuitions actually

### **MINING COMPANIES REACH FOR THE STARS**

*Gulf News, TheViews, p. 4, Vasudevan Mukunth, 30/08/2017*

...Space Act would help protect investments - but it was bad news for the international regime as such. In sum, as Gbenga Oduntan, an expert on international law at the University of Kent in England, had written at the time, "that American companies could on the basis of domestic laws alone systematically exploit mineral resources in space really amounts...

### **We Evolved to Run - But We're Doing It All Wrong**

*National Geographic Traveller (Web), All, Simon Worrall, 30/08/2017*

Thinking about running as a slow, meditative practice provides more benefits than viewing it as a sport, author says.

### **Delingpole: Breitbart Is Like the Nazis' Newspaper Claims Ex-BBC-Man/University Chief**

*Breitbart.com (Web), All, James Delingpole, 28/08/2017*

Here is what the Chancellor of Britain's University of Kent thinks about Breitbart.

### **Belief in One's Intuition May Not Track Performance**

*Psych Central News (Blog), Main, Unattributed, 01/08/2017*

New research finds that a person's belief in their intuitive skills does not appear to match their performance in tasks that require intuition. Psychologists at the University of Kent found that the extent to which people feel confident about, and endorse, their intuitions may often not provide an indication of how good their intuitions actually are.

### **Pharmacies play a vital role**

*The Hippocratic Post (Blog), Unattributed, 04/08/2017*

...England, including where the services are offered, is holding it back. Looking to expand on existing research, Liverpool John Moores University (LJMU) and the Medway School of Pharmacy (The Universities of Kent and Greenwich), have produced the first baseline map of service commissioning by local authorities (LAs) in community pharmacies across England. This means that there is now a...
